Izgatavosim skursteņa jumtiņus precīzi pēc Jūsu izmēriem.

Skursteņa jumtiņa savienojuma vietas valcētas, jumtiņa kājas izgatavotas no metāla sloksnes.

\*Ja skursteņa jumtiņš paredzēts apkurei, papildus piedāvājam **izolētu aizsargplāksni (ekrānu) no nerūsējošā tērauda**, lai novērstu jumtiņa korozijas procesu.
